Performance is based on reinvested income and capital gain distributions plus or minus any change in principal value for the respective periods ended September 30th, 2025. Individual results may vary depending on timing of deposits. Results shown are not a guarantee of future performance, and account values at the time of redemption may be worth more or less than cash invested. Returns are inclusive of mutual fund expense ratios, but do not reflect the deduction of a gross annual CA 457 fee of 0.34%. Some mutual funds offered in the Plan provide expense reimbursements as indicated in the last column of the table. Reimbursements are only credited to participant accounts that have an active investment in mutual funds that offer reimbursements. Thus, depending on the rate of mutual fund expense reimbursements, a participant's CA 457 fee may be offset in full, partially, or not at all. Additionally, the City of Costa Mesa's Deferred Compensation Committee utilizes an independent third-party consultant and directs CA 457 to invoice participant accounts at a current annual rate of approximately 0.026% to compensate the consultant. Feel free to contact CA 457 at 800-770-0457 for more information.
